VDID Industrial Design Day 2019

VDID NEWCOMERS' AWARD 2019 prize-giving ceremony

24 May 2019 from 12:00 noon to 3:00 p.m., awards presentation at 1:00 p.m., followed by get-together from 3:00 p.m. to 4:30 p.m.
Hall 4.2, Forum 4.2

Language of conference presentations: 

Organiser: VDID Verband Deutscher Industrie Designer e.V. (Association of German Industrial Designers)

The VDID Industrial Design Day 2019 is focused on the theme of industrial design as a driver and reflection of technological, economic and socio-cultural trends. In the six decades since the German Association of Industrial Designers (VDID) was founded, the profession has changed dramatically. For instance, industrial design work is increasingly driven by digital interfaces and process management. The transformation of the profession has also been apparent for many years in the submissions to the VDID NEWCOMERS' AWARD. Purely digital solutions to problems and conceptual competition entries are on the rise and are an indication of the skills of up-and-coming industrial designers in terms of user experiences and strategy development.

The VDID NEWCOMERS' AWARD recognises young talent for the industrial design of the future and gives budding industrial designers a platform and supports them in making a successful start to their careers. The selected projects and objects will be presented at the VDID stand.

interzum award

21 to 24 May 2019, 9:00 a.m. – 6:00 p.m.

Boulevard, Passages 3/11 and 10/11

Organiser: Koelnmesse GmbH supported by red dot

For what is now the tenth time, Koelnmesse, in cooperation with red dot, presents the interzum award for intelligent material & design. In a new departure for this year, products can now be entered for five different categories: Materials and Surfaces; Fittings, Glass and Lighting; Upholstery Manufacture and Bedding; Mobile Spaces; and Tiny Spaces.

The jury will assess the designs according to their level of innovation, functionality, quality of material, shape and sustainability. The six members of the 2019 jury are: Prof. Martin Beeh, Dick Spierenburg, Prof. Martin Stosch, Danny Venlet, Winfried Weber und Vito Orazem.

The winning exhibits in the prize category High Product Quality will be displayed along the middle section of the Boulevard, in Passage 3/11 and 10/11, while products in the Best of the Best category will be presented at the Boulevard.

VDID NEWCOMERS' AWARD 2019 PRIZE-GIVING CEREMONY AND VDID INDUSTRIAL DESIGN DAY

The VDID Industrial Design Day 2019 at interzum is focused on the theme of industrial design as a driver and reflection of technological, economic and socio-cultural trends. In the six decades since the German Association of Industrial Designers (VDID) was founded, the profession has changed dramatically. For instance, industrial design work is increasingly driven by digital interfaces and process management. The transformation of the profession has also been apparent for many years in the submissions to the VDID NEWCOMERS' AWARD. Purely digital solutions to problems and conceptual competition entries are on the rise and are an indication of the skills of up-and-coming industrial designers in terms of user experiences and strategy development.

The VDID NEWCOMERS' AWARD recognises young talent for the industrial design of the future and gives budding industrial designers a platform and supports them in making a successful start to their careers. The selected projects and objects will be presented at the VDID stand in Hall 4.2, stand B 73.

Sliding system for "in-line" cabinet doors

PATENTED

Switch is the innovative solution by Terno Scorrevoli designed to espouse the visual elegance typical of "in-line" doors

(internal sliding) along with high performance requirements and significantly reduced costs. When the cabinet is closed, the "in light" flush closure of doors, will allow a continuous and compact surface with no overlap between one door to the other. **Switch** it allows then to realize **furnitures for offices, small cabinets for living rooms, kitchens and bathrooms**, characterized by a strong aesthetic impact. The functionality of **Switch** system is very simple and it reminds to typical train railroad switch: with a single gesture, cabinet door will be shifting and then it will slide internally to the cabinet, thanks to the simple rotation of small flap which leads it during the motion.

“Furniture Club – Made in Germany e.V.“ is an association of the German furniture industry.

We act as a “one-stop-shop“ to international decision makers from the furniture industry and from contract business who are looking for innovative and competitive furniture suppliers or manufacturers.

We offer you:

- tailor-made sourcing according to your demand
- personal contacts to managers of the German furniture industry
- further information on www.furnitureclub.de

In co-operation with our associate member Koelnmesse, we have the pleasure to invite you to meet us for personal talks. If you are interested, please make an appointment in advance by email:

Pay us a visit at the interzum special event area

„Piazza Mobile Spaces“ in hall 10.1.

Here, member companies of the Furniture Club exhibit a jointly furnished panorama cabin and demonstrate their competence in interior design solutions for ships:

- Alanod
- drapilux / Schmitz Textiles
- Formaplan
- GH Hotel Interior Group
- Halbmond Teppichwerke
- Hettich
- Melalux
